A comprehensive needs assessment of the entire school has been conducted.
The needs assessment includes analysis of the achievement of students in relation to the Missouri Learning Standards.

NEEDS ASSESSMENT: SCHOOL PROFILE
Student Demographics
The following data regarding student demographics has been collected, retained, and analyzed:
✓ Enrollment (Required)
✓ Grade level (Required)
✓ Ethnicity (Required)
✓ Attendance (Required)
✓ Mobility (Required)
✓ Socioeconomic status (Required)
✓ Discipline (Required)
✓ Limited English Proficiency (Required)
Summarize the analysis of data regarding student demographics :
Strengths:
DISCIPLINE According to SIS Pulse data, discipline for VES students is consistent with other averages for type of offense, and the majority are for minor classroom disruptions. There is nothing outstanding that raises flags for these students or our building as a whole. We continue to support positive behaviors and address needs during support team and grade-level data team meetings.

Weaknesses:

DISCIPLINE
We still have a high number of students reading well below grade level, or struggling on foundational reading components in our K-4 grades. While our Title teachers showed tremendous growth with their serviced students last year (55% were moved to on level or 1 below by the end of last year), we still have a lot of work to do. We will continue this work along with the new required

Indicate needs related to strengths and weaknesses:

There is a need to continue a focus on supplemental reading instruction and intervention at the K-4 level.

There is a need to review transition processes for students entering the school mid-year.

Student Achievement

The following data regarding student achievement has been collected, retained, and analyzed:

- ✓ MAP results by content area and grade level, including multi-year trends (required)
- MAP results by ESEA Annual Measurable Objective: comparative data showing performance of disadvantaged students against all other meaningful categories of students in the school; comparison of performances of students in various subgroups (required)
- ✓ Completion rates: promotion/graduation rate, retention rates (if applicable)
- Post-Secondary trends: students attending and/or completing post-secondary schools, students accepted in the armed forces (if applicable)
- Other performance indicators used in analysis:

Local benchmark assessments Common Formative Assessments

Summarize the analysis of data regarding student achievement:

Strengths:

We saw positives in ELA in:
-Listening and summarizing what was said
-Paraphrasing what was read
-Note-taking
-Summarizing/sequencing a plot
-Describing characters

Weaknesses:

We see opportunities for improvement in ELA in:

-Identifying main idea/ details

-Using textual support when responding

-Drawing and supporting conclusions in informational texts

-Understanding figurative language/common idioms

-Using context clues to puzzle unknown words

Indicate needs related to strengths and weaknesses:

One of the areas we plan to focus improvement resources on is the consistent administration of benchmark and common assessments, as well as the analysis and interpretation of the data provided.

We noticed that our students are performing well on level 1 and 2 types of tasks (basic recall/identification, simple applications, surface-level

Curriculum and Instruction

Data has been collected, retained, and analyzed regarding each of the following factors of curriculum and instruction at the school:

- Learning expectations
- Instructional program
- Instructional materials
- Instructional technology
- Support personnel

Summarize the analysis of data regarding curriculum and instruction:

Strengths:

For the past five years, our district has made huge gains in the development of aligned curriculum documents and deep study of the MLS. We have updated our math curricular materials to better align to the increased expectations. We have common language and scoring expectations for our writing, K-12. We are 1:1 with Chromebooks in grades K-12. We have implemented new ELA materials starting next year. We are digging deeply into an extended study of

Weaknesses:

We are continuing to work toward using our technology to both scaffold and engage direct instruction, not replace it. We have a technology coach who is invaluable in supporting effective technology integration.

While we are feeling more comfortable with our new math resource, the shifts in instructional expectations for mathematics take time to make. Ongoing

Indicate needs related to strengths and weaknesses:

- 1. Continue to deliver HQI through gradual release
- 2. Accelerate learning for missing prerequisite skills through RTI
- Continue our work around priority standards and formative assessment of missing prerequisite skills
- 4. Utilize the new assessment platform to centralize assessment data and facilitate comparison and response

High Quality Professional Staff

Data has been collected, retained, and analyzed regarding each of the following factors of a high quality professional staff:

- Staff preparation
- Core courses taught by appropriately certified teachers
- ✓ Staff specialists and other support staff
- ✓ Staff demographics
- School administrators

Summarize the analysis of data regarding high quality professional staff:

Strengths:

Our average years of experience for our staff is 14.7 years, resulting in many years of collective experience and efficacy. 63.8% hold advanced degrees.

We have a committed staff who cares about kids. They have high expectations and are current on educational trends.

Weaknesses:

We struggle to staff subs fully, which can affect multiple classrooms.

We continue to have reductions in FTEs which resulted in teachers moving gradelevels. While they will become familiar with their MLS and student development at those levels, it takes time and can add stress.

Indicate needs related to strengths and weaknesses:

- -Continue to promote subbing in our district to avoid lost instructional time
- -Monitor stress and morale and support collaboration
- -Focus professional development on effective assessment use and response

Family and Community Engagement

Data has been collected, retained, and analyzed regarding each of the following factors of family and community engagement at the school:

- Parental involvement
- ✓ Communication with parents
- ✓ Policy Involvement
- ✓ Parent education
- ✓ Support for special needs and underserved
- ✓ Health services

Summarize the analysis of data regarding family and community engagement:

Strengths:

We now have a very active Booster organization and take full advantage of the funds the district provides for Family Involvement Events. We utilize the following engagement activities at our building:

-Family Movie Night
-Literacy Night

Weaknesses:

We don't have too many weaknesses in regard to engaging our families. We often have to find parking just to accommodate them at events.

Indicate needs related to strengths and weaknesses:

Need to utilize multiple approaches to maintain open communication

School Context and Organization

Data has been collected, retained, and analyzed regarding each of the following factors of school context and organization at the school:

- ✓ School mission/vision
- Average class size
- School climate
- Management and governance
- Student discipline policy

Summarize the analysis of data regarding school context and organization:

Strengths:

As a staff, we have a strong family feel, and our building has a strong sense of tradition. We support one another and do whatever it takes for kids. We recognize the academic, basic, and social-emotional needs of our students and prepare systems of support to meet them.

Weaknesses:

Our staff has experienced some change over the past several years. They have seen continually declining enrollment numbers, which has resulted in several FTEs being absorbed through attrition and some staff being asked to shift grade-levels and contents. While these are necessary changes, they are changes nonetheless and add to the stress of a complex job.

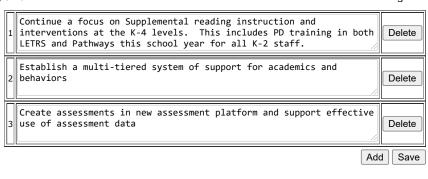

Continually monitor stress and morale in the building and maintain open lines of communication with staff about long-term planning and district decisions.

NEEDS ASSESSMENT: IDENTIFYING PRIORITIES

"In most schools, conducting a comprehensive needs assessment will result in the identification of a large number of issues that could be addressed to improve the achievement of students. However, no school should attempt to address every identified need in a single year. Most planning experts suggest that schools prioritize their major issues and address no more than three of the most important..."
